

Statistica Applicata – Italian Journal of Applied Statistics

Call for Papers for a Thematic Issue on

“Food Quality and Statistics”

This thematic issue of the Italian Journal of Applied Statistics (<http://sa-ijas.stat.unipd.it>) will be devoted to the advancements in the broad field of "*Statistical methods for food product quality*". Submissions that deal with advances in statistics and applications in this topic, also including data collection, analysis, and interpretation on the topical issues, are welcome.

Possible topics are:

- Measuring and assessing the quality of food and drink products
- Qualitative and quantitative methods for sensorial research
- Longitudinal studies on food and wine consumption and evaluation
- Experiments and modelling of consumers' choice and preferences
- Methods and models for food and wines classification
- Customer satisfaction in the food and drink sector
- New innovative statistical methods of analysis of the food and drink market (e.g., Market segmentation, Market share, etc.)

All submitted manuscripts will be peer reviewed, and they have to adhere to the standards of the journal. Authors are encouraged to follow the specifications in "Instructions for Authors" available at <http://sa-ijas.stat.unipd.it/instruction.html>. Templates with the journal format in Word or LaTeX are available at <http://sa-ijas.stat.unipd.it/submit.html>.

The *new*** deadline for paper submissions is January 7th, 2019**
